## Elwood College Profile Statement

At Elwood College, we support the right of all members of the school community to access safe and inclusive learning environments, including digital and online spaces. This form outlines the school's roles and responsibilities in supporting safe digital learning, as well as the expected behaviours we have of our students when using digital or online spaces.

At our School we:

- Have a **Student Engagement Policy** that outlines our school's values and expected standards of student conduct, including consequences for breaching the standards. This policy extends to online conduct
- Have programs in place to educate our students to be safe and responsible users of digital technologies
- Provide information about digital access issues such as online privacy, intellectual property and copyright
- Supervise and support students using digital technologies in the classroom
- Use clear protocols and procedures to protect students working in online spaces. This includes reviewing the safety and appropriateness of online tools and communities, removing offensive content at earliest opportunity, and other measures
- Provide a filtered internet service to block inappropriate content. We acknowledge, however, that full protection from inappropriate content cannot be guaranteed
- Use online sites and digital tools that support students' learning
- Address issues or incidents that have the potential to impact on the wellbeing of our students
- Refer suspected illegal online acts to the relevant Law Enforcement authority for investigation
- Support parents and caregivers to understand safe and responsible use of digital technologies and the strategies that can be implemented at home
