The Academy program is supported by Australia’s premier basketball exponent, Andrew Gaze. Andrew has been instrumental in the implementation of the school academy format and will oversee the provision of the program to Elwood College students.

Elwood College holds a firm position as one of the premier public school education facilities in Melbourne’s Bayside. The new Basketball Academy Program will utilise the school’s growing sporting resources to introduce basketball as a means for students to fulfil personal fitness and development goals through sport.

The Elwood College Basketball Academy is an integrated sports system that will see students selecting basketball to be included in their co-curricular timetable. ACADEMY PHILOSOPHY:

The *Elwood College Basketball Academy* philosophy will be reflected in the coaching principles of the head coaching staff.

The four cornerstones of the Academy philosophy are:
- Enjoyment/Fun
- Basketball skills development
- Fitness from a strong work ethic
- Personal Development.

ENJOYMENT/FUN

It is essential that the athletes who enrol in the *Elwood College Basketball Academy* enjoy their involvement as much as possible. There will be times when the tuition and coaching will be hard work but the underlying essence of the academy should be to enjoy the experience, the game, team mates and time with the coaching staff.

The academy bases the cornerstone of Enjoyment/Fun on the premise that athletes learn more from their involvement in a sport if they are enjoying their participation. The best learning environment will be generated if enjoyment and fun is the foundation of the program.

Fun and enjoyment, hard work and discipline are not mutually exclusive elements to the academy. Every endeavour will be made to make any time with the academy as enjoyable as possible while still working hard on the basketball court.

SKILLS

Basketball is a sport built on the development of fundamental skills and the academy has some of the best skills coaches in the country. The development of the individual in relation to footwork, shooting, passing, ball handling, defence and basketball IQ will have a direct affect on how far the athlete can progress within the sport of basketball. All skills associated with the sport will be worked on in accordance with the needs of the training group. Skills will be taught in a way where the students will continue to be engaged with the appropriate level of repetition and instruction through a very wide range of drills.

FITNESS AND WORK ETHIC

The physical wellbeing of the athlete is of a very high priority to the *Elwood College Basketball Academy*. Cardio work combined with appropriate levels of strength and conditioning will be a major part of the academy program. The physical component of the sessions will often be challenging for the athlete but also very valuable for their basketball and life goals. All fitness targets will be age and skill level appropriate and will take into account the developmental and emotional background of the participants. Every program will be targeted to include a work contract and the benefits of goal setting and perseverance will be highlighted.

PERSONAL DEVELOPMENT

The *Elwood College Basketball Academy* is designed to complement the academic activities and goals of the school curriculum. A healthy mind and body is the objective of the school and the academy. The academy will work in conjunction with the teachers at the school and personal student grades are to be monitored and assessed periodically throughout the year.
